## PROFESSIONAL EXPERIENCE

**SAP ABAP Consultant** (Software Development Lead)

Dec 2025 – Present

**Accenture India** | Noida, UP

- Lead an **11-person ABAP team** on an ECC-to-S/4HANA transformation for a global enterprise client; own **HANA remediation of 60+ custom objects**, clear ATC-critical findings, and enforce Clean Core compliance.
- Build CDS Views, OData V4 services and RAP-based Fiori apps on SAP BTP; **reduced custom footprint ~30%** through Released API adoption and side-by-side extensibility.
- Redesign legacy programs with code push-down and AMDP for **40–60% query-level gains** on large HANA datasets; use SmartShift automated remediation to cut manual migration-assessment effort (~35% per sprint).

- Deliver SAP EAM Fiori enhancements (**F2173** Manage Maintenance Orders, **F2175** Schedule Maintenance Orders & Operations); support Maintenance Phase 9 cutover, data validation, reconciliation and hypercare.
- Designed and implemented an enterprise-scale **maintenance-order mass-printing solution** integrated with SAP Fiori, removing manual print effort for maintenance teams.
- Perform FSCM field-mapping and custom-object impact analysis for the S/4HANA conversion; contribute to ABAP Cloud adoption and migration planning with solution architects across FI/CO, MM and SD.
- Run code reviews against ATC, Clean Core and ABAP Unit (TDD) standards and mentor developers on RAP, CDS, OData V4 and ABAP Cloud.
- Author technical design documents (Fiori mass-printing application, maintenance-order recalculation utility) and a 29-page knowledge-transfer guide to support production handover.

**Tech Stack:** SAP ABAP · S/4HANA · ABAP Cloud · CDS Views · RAP · OData V4 · SAP BTP · HANA Remediation · SAP EAM · SAP Fiori · Fiori Elements · SmartShift · AMDP · Eclipse ADT · ATC

## SAP ABAP Consultant / Infosys Certified SAP Fiori Consultant

May 2021 – Dec 2025

**Infosys Private Limited (EAS SAP Unit)** | Noida, UP

- **Progressed from ABAP Developer to AMS Track Lead in 18 months** (Aug 2022 – Dec 2025); led technical delivery for 3 concurrent application-management projects, resolved P1/P2 incidents on live client calls, and presented POCs to client stakeholders without major escalations.
- Developed 20+ reports (Classical, Interactive, ALV/SALV) and interface programs (Proxies, RFC, IDocs, Web Dynpro) across FI/CO, MM and SD.
- Architected SAP Workflow for multi-level purchase approval (business-object methods, tasks, agent determination, deadline monitoring), cutting **manual processing time ~40%** across a 500+ user business unit.
- Applied ABAP 7.5 modernisation (inline declarations, ABAP SQL enhancements, method chaining) to legacy code, **reducing average runtime 25–35%**.
- Built and maintained SmartForms, Adobe Forms and SAPscript output (BOLs, packing slips, financial statements) across 5+ functional areas.
- Led ALE/IDoc integration and BAPI-based master-data migration across 3 client landscapes.

**Tech Stack:** SAP ABAP 7.5 · OOABAP · SAP Fiori · OData · Web Dynpro · ALE/IDocs · SmartForms · Adobe Forms · RFC · BAPIs · SAP Workflow · BRF Plus

## KEY PROJECT ACHIEVEMENTS

### LT03 Custom Transaction — Infosys | Global Logistics Client

Nov 2023 – Jan 2024

- Led analysis and POC for a client-blocking LT03 limitation and built a custom ABAP transaction, **avoiding a €50K+ third-party tool purchase**; delivered on time with zero post-go-live defects and a formal client appreciation letter.

### US Email Automation – BOL & Packing Slip — Infosys | Global Manufacturing Client

Feb – May 2024

- Implemented PO/DN consolidation logic that **eliminated ~200 duplicate email triggers per month** and cut output processing time 30%, improving warehouse SLA compliance.

### Traceability Report — Infosys | SD/MM Client

Aug 2024 – Apr 2025

- Built an on-demand order and delivery traceability report that **replaced a 4-hour manual monthly process with a 2-minute run**.

### CO-PA Report Reconciliation — Infosys | SAP FICO Client

Sep – Dec 2023

- Built a reconciliation report over frozen background-job index data (FI, CO-PA and statistical values by posting date), **saving ~4 hours of manual reconciliation per month-end**.
